A LARGE AREA SEAWARD. NO OBVIOUS LAND BASED CORRESPONDENTS CAN
BE IDENTIFIED. —25X1
4. THE FACILITY AT ISTRA IS LOCATED IN THE INTERIOR OF THE USSR CMX WHICH MAKES IT DIFFICULT TO DETERMINE THE AREAS TO WHICH THE THREE
ARRAYS PROPAGATE. IN THE CASE OF THE THREE REMAINING FACILITIES,
KORYAKI, SOVETSKAYA GAVAN, AND BAKHCHISARY, PRESENTLY AVAILABLE
PHOTOGRAPHIC COVERAGE IS NOT OF SUFFICIENT INTERPRETABILITY TO MAKE ADVANCE CY
POSITIVE IDENTIFICATION OF THE SPECIFIC TYPES OR PROPAGATION AZIMUT SANITIZED OF THE ANTENNAS PRESENT. IT IS OF INTEREST TO NOTE THAT ALL WITH TEXT
FACTUITIES WITH THE EXCEPTION OF ISTRA. ARE LOCATED ON THE PERIPHERY
OF THE HSSR. AND ARE IN AREAS OF SIGNIFICANT NAVAL ACTIVITY. THE
ABOVE EVIDENCE SUGGESTS THAT THESE FACILITIES MAY BE NAVAL RELATED.
